### **Summary:**

Detail-oriented and motivated Results-driven Front-End Developer with 2 years of experience in designing, developing, and maintaining responsive and user-friendly web applications. Proficient in HTML, CSS, JavaScript, and modern frameworks like React and Angular. Passionate about crafting seamless UI/UX experiences and optimizing web performance.

---

### **Technical Skills: -**

#### ➤ **Frontend Development:**

- **Front-End Technologies:** HTML5, CSS3, JavaScript (ES6+), TypeScript
- **Frameworks & Libraries:** React.js, Angular, Vue.js, Bootstrap, Tailwind CSS
- **State Management:** Redux, Context API
- **Version Control:** Git, GitHub, GitLab
- **Build Tools & Task Runners:** Webpack, Babel, NPM, Yarn
- **UI/UX & Design:** Figma, Adobe XD, Responsive Design, Material UI
- **Testing:** Jest, Cypress, React Testing Library
- **Other Technologies:** RESTful APIs, GraphQL, Firebase, WebSockets

#### ➤ **Manual and Automation Testing:**

- **Manual Testing:** Test Case Design, Execution
- **Test Automation:** Selenium WebDriver, Cucumber, JUnit, TestNG, Maven
- **API Testing:** Postman, REST Assured
- **Test Management Tools:** Jira
- **Agile Methodology:** Scrum

#### ➤ **Development Tools:**

- **IDEs:** Eclipse, IntelliJ IDEA, STS
- **Version Control:** Git, GitHub
- **Project Management:** Jira, Agile, Scrum
- **Testing Tools:** Selenium WebDriver, Cucumber, JUnit, Postman
- **Frameworks:** React.js, Spring Boot
- **Database Languages:** MySQL, SQL

---

## Professional Experience:

- Experience of 3 years in **SAP MM & EWM while working at Techno solution** on a contract basis.
- Intern of 2 years in **Frontend Development and Testing at Anarghya Communication Private Limited.**

---

- **1.Project Name:** E-Business (HushSG)

**Client:** BEALLS, Singapore

**Duration:** Feb 2023 - Oct 2023

**Role:** Software Engineer (Frontend)

**Environment:** MySQL, Jira

**Team Size:** 6 members

- **Description**

Developed and tested BEALLS, a comprehensive online e-commerce platform that enables customers to easily search for and purchase electronic items. The platform features a robust product catalog, wish list functionality, and a streamlined shopping cart, allowing users to manage their purchases effortlessly and complete transactions through various payment options, including Credit Card, Debit Card, and Net Banking.

- Developed and tested BEALLS, a comprehensive online e-commerce platform that enables customers to easily search for and purchase electronic items.
- Designed and implemented a robust product catalog, wish list functionality, and a streamlined shopping cart for seamless user experience.
- Integrated multiple payment options, including Credit Card, Debit Card, and Net Banking, ensuring a secure and efficient checkout process.

---

- **2.Project Name:** Hospital Management

**Client:** Daejeon, Korea

**Duration:** Jan 2024 – Dec 2024

**Role:** Frontend Developer

**Team Size:** 4 members

**Environment:**

- **MySQL:** Used for managing and storing patient records, appointments, billing, and inventory data, ensuring data integrity and efficient retrieval.
- **Jira:** Utilized for tracking project progress, managing tasks, and reporting bugs, facilitating effective communication and collaboration within the team.
- **React:** Leveraged for building dynamic and responsive user interfaces, enhancing the overall user experience of the application.

## Key Responsibilities:

- Designed and developed intuitive frontend components using React.js to manage patient information, appointments, and staff schedules, significantly improving user engagement and operational workflows.

- Collaborated with backend developers to integrate RESTful APIs for seamless data handling, ensuring real-time updates and accurate information retrieval.
  - Implemented responsive design principles to create a user-friendly interface that functions effectively across mobile and desktop devices, enhancing accessibility for all users.
  - Optimized application performance through code-splitting and lazy loading techniques, resulting in faster load times and improved user satisfaction.
  - Conducted usability testing sessions to gather user feedback, iteratively refining the interface and addressing usability issues to enhance overall user experience.
  - Participated in code reviews, providing constructive feedback to team members to uphold code quality and adhere to best practices.
  - Collaborated closely with the QA team to facilitate thorough testing of the application, promptly addressing any identified functionality issues.
  - Actively engaged in Agile ceremonies, including sprint planning, daily stand-ups, and retrospectives, contributing to continuous process improvements and team cohesion.
- 

**Qualifications: -**

- B. Tech in Mechanical Engineering, SaiSpurthi Institute of Technology & Science, JNTU, Hyderabad, 2016.

**Place: -**Hyderabad.
